WORK EXPERIENCE

WhiteCity Code   **Dec. 2023 – Present**
Frontend developer   *Alba Iulia. RO*

- Built several static websites using Astro and Deno Fresh, with a quick turnaround time, following Figma designs

- Jumped in for UI/UX improvements where needed

- Constantly improving my frontend skills, while also developing backend skills to help me be more efficient.

- Utilized tools like Git for version control and project management tools to streamline workflows.

Freelance   **Mar 2023 – Sept 2023**
Software developer   *Remote*

- Successfully completed multiple freelance projects, demonstrating the ability to work independently, meet deadlines, and deliver high-quality web solutions to clients.

- Committed to creating intuitive and visually appealing user interfaces, ensuring a seamless user experience and client satisfaction..

- Capable of analyzing complex requirements and translating them into practical and efficient frontend solutions, resolving technical challenges to achieve optimal results.

uTest   **Sept 2022 – Feb 2023**
Software tester   *Remote*

- Proficient in creating comprehensive test plans, test cases, and test scripts to ensure thorough test coverage and meticulous bug reporting.

- Conducted various types of testing (e.g., functional, regression, performance, usability) with a keen eye for detail, identifying and documenting defects to enhance software quality and user experience.

- Skilled in identifying, documenting, prioritizing, and tracking defects using bug tracking tools (e.g., Jira), facilitating effective communication between development and testing teams for prompt issue resolution.
